

**REMARKS**

This application is submitted as a National Phase Application of PCT Application No. PCT/IL2003/000533, filed on June 25, 2003.

The present amendments are based on the claims included in the IPER established for the PCT application. Applicants note that all the claims are indicated as meeting the criteria of PCT Articles 33(2) - 33(4) in the IPER issued by the U.S. Patent Office (acting as IPEA).

The present amendments are made to place the claims in proper U.S. form and to include two new claims. The application now contains 20 claims of which claims 6-12, 14 and 15 are amended and new claims 19 and 20 are added.

New claims 19 and 20 are method claims corresponding to apparatus claims 1 and 17 respectively.

In view of the favorable IPER, applicants submit that the application is in order for allowance. An action on the merits is respectfully awaited.

Respectfully submitted,
